Jennifer,

Attached please find responses to your questions on the *HERA Response to BOSC Comments*. (end of email chain). Sam and Beth included Lou in these revisions – they are not extensive.

If you are OK, we would like to post on ORD's BOSC Website late next week, to make the Feb 2-3 meeting.

Subject: RE: HERA BOSC Response

Hi Emily, Bruce, and Lou-

Samantha and I have addressed the comments from JOZ in the attached version of the HERA Response to the BOSC comments. This included follow up with OSAPE and Lou. Please let us know if there are further edits that are needed.

The StRAP is ready to be posted. Michelle Latham and Carolyn have asked if we should get it posted. Do we have the greenlight to get them to post the HERA StRAP?

Thanks so much
Beth

Hi Beth and Samantha,
Whenever the revisions to Jennifer's comments are complete, can you please send to me, Bruce, and Lou?

Thanks!
Emily

Hi again.

Attached are the JOZ responses to the HERA BOSC Response. Should be doable.

Subject: HERA BOSC Response

Jennifer,

Attached please find the draft response to BOSC comments on the HERA StRAP. This is been formatted as per previous responses by adding red-response text to the BOSC report. Consistent with our previous discussion, we would welcome your preliminary comments as we prepare this response for posting in January, prior to the next BOSC Chemical Safety Subcommittee meeting scheduled for Feb 2.

The actual revised HERA StRAP is being made 508 compliant. When Comms has a cover page finalized for the StRAP, and we have completed review of the Response, the proposal is to follow past practice and upload both documents (StRAP, Response to BOSC) to the Internet.

Thanks again Bruce.

Attached is the updated Response to Comments for Jennifer's review. We would like her review before it goes to Michelle for 508, right?

Thanks again,
Beth

Subject: HERA BOSC Response

Hi all. Two things:

1. Please find attached redline edits to the HERA response to BOSC comments. See what you think, please get back to me sooner rather than later. I suspect that JOZ will still prune a lot of the text, and so it would be good to get this to her.
2. Megan or Sam/Beth – hoping you had a Merry Holiday. Where did we end up on the HERA 508 compliance? Who has the ball on this? And, do we need 508 compliance on the response to comments – since it is all text, no pictures?

It would be good to have a package ready to go up early in the New Year, before the next BOSC meeting.

Dr. Bruce Rodan

Associate Director for Science
